

Shift Supervisor

SIMS Metal Management, East, the worlds leading metal and electronics recycling company, currently has openings for Shift Supervisors at our Newark and Jersey City facilities. Ideal candidate will have a minimum of 5 years experience with hydraulics, electrical, mechanical and PLC applications. Responsibilities include running a shredder on 2nd shift; maximize efficiency and productivity and scheduling maintenance. If you are a self-starter and are willing to work in a physically demanding environment, we offer a commensurate salary and generous benefit package. Ability to speak Spanish or Portuguese a plus, but not required. To submit resumes, visit our website at www.sims-group.com/us/ ; go to the People & Careers tab.
